Dear friends, dear colleagues,

After Arcachon, Murcia and Bruges, it is a great pleasure to announce our next international meeting which will be hosted in Barcelona the 2-3-4 of July 2015. This event was initially promoted and supported by our late friend Pau Golanó. Therefore we would like to dedicate him this congress as an acknowledgement of his involvement in GRECMIP and his particular dedication to foot and ankle surgical anatomy. During the congress there will be an exhibition organized by his partner Celine, in celebration of his memory. It will be an opportunity for those who are not familiar with his work to discover and explore his artistry as well as a place for those who knew him to pause and remember.

The meeting will be a forum of exchange on mini-invasive procedure. As usual Percutaneous and Arthroscopy procedures will be under the spotlight.

Our international faculty will be able to debate with you on many topics. The free papers sessions will be a friendly moment to share with us your experience.

I am looking forward to meeting you again in Barcelona
